

# Acrylic, a Wise Investment

100% Cast Acrylic is one of the most durable bath and shower materials on the market. Acrylic bathware is thermoformed from a single sheet of colour-through acrylic and then sprayed on the back with a mixture of polyester resin and chopped fiberglass giving the product rigidity and strength.

	<b>Acrylic Shower</b>		<b>Tile</b>
✓	Typically can be installed at a lower cost compared to a tiled shower*	✗	Typically two to three times the cost of installing an acrylic shower*
✓	DIY installation (Professional plumber installation recommended)	✗	Expert installation required by General Contractor, Professional Plumber and Tile Installer Tradesman
