

# Spa EXPERIENCES

Regardless of the spa experience combinations you choose, Longevity Acrylics Inc. offers a degree of extreme customization to its Bathware lines. You will appreciate just how far Longevity Acrylics Inc. will go to facilitate your vision of creating your truly unique bathroom environment.

# HYDRO MASSAGE

4 jets

6 jets

White

Chrome (Optional)

We all dream of the perfect bath. For some of us, that means having a deep massage while immersed in water.

Whirlpool systems push water to create and deliver a deep massage that soothes tension, relaxes muscles, eliminates toxins, stimulates blood flow, and generates a greater sense of well-being.

- 3/4 hp pump
- tub mounted on/off switch
- 2 air controls
- integrated timer
- colour coordinated jets

Available options:	
4MBJ-WH/CH	4 micro back jets
CW-HEAT-BATH	Comfortwarm heating pad
IHFI	Inline heater (whirlpool system)
AROM-MECH	Aromatherapy mechanical
AROM-ELECT	Aromatherapy electrical
CKFI	Chromotherapy
VIBE	Vibe music system

# AIR MASSAGE

Classic 12 jets

Mini lateral 32 jets

Round Chrome

Round White  
(Optional)

Square White  
(Optional - Classic 12 jets only)

Air therapeutic systems surround you with thousands of tiny pre-heated air bubbles that give a relaxing massage of soft, warmed air.

Our air therapeutic system offers variable power settings for either a deep and invigorating massage or a gentle and relaxing one. What's even better is that the system is hygienic and maintenance-free, thanks to our automatic purge system that drains and dries each air jet after use.

- 1 hp blower
- ML electronic control switch (Classic 12 jets)
- MFE electronic control switch (Mini lateral 32 jets)
- Tub mounted electronic controls
- Inline heater  
(The inline heater is not designed to heat your bath water, just to preheat the incoming air to body temperature.)

Available options:	
CW-HEAT-BATH	Comfortwarm heating pad
AROM-MECH	Aromatherapy mechanical
AROM-ELECT	Aromatherapy electrical
CKFI	Chromotherapy
VIBE	Vibe music system

## Installation Guidelines Spa Systems:

- If you are ordering a combination system (air massage system/hydro massage system/mini lateral system), you must order the optional access panel, and there must be an additional access point for the blower (models 6032S, 7234S, 2170, 2173, 2060, 2063).
- If you are installing a combination system (air massage system & hydro massage system/mini lateral system), the optional access panel only gives you access to the motor (hydro massage system). You cannot access the blower through the optional access panel.
- When ordering a combination system a 3' extension kit is available so that the blower can be installed in a closet, or in the basement below.
- If you are installing a combination system (air massage system & hydro massage system/mini lateral system), you need an additional 6" behind the flange of the tub to accommodate both systems (headrest end).
- If you are installing only the air massage system, or only the hydro massage system no additional space is required behind the flange of the tub (headrest end).

12 jets only)

Our desires for a perfect bathing experience may change from day to day. For that reason, Longevity Acrylics offers combination whirlpool and air therapeutic systems for many of its bathtubs, cornertubs, and tubshowers.

A combination system means that you can always choose from either a water and air massage experience – or both together – for the ultimate customized bath experience.

- Combination 6 jet and therapeutic air
  - 3/4 hp pump
  - MFE switch controls both systems
  - includes air on/off
  - Variable speed and wave cycle plus whirlpool on/off
  - Inline heater (air system)
- (The inline heater is not designed to heat your bath water, just to preheat the incoming air to body temperature.)

Available options:	
4MBJ-WH/CH	4 micro back jets
CW-HEAT-BATH	Comfortwarm heating pad
IHFI	Inline heater (whirlpool system)
AROM-MECH	Aromatherapy mechanical
AROM-ELECT	Aromatherapy electrical
CKFI	Chromotherapy
VIBE	Vibe music system

# CHROMATHERAPY

Chromotherapy is a therapy that uses colors to promote harmony and natural well-being. Each color corresponds to a vibration with its individual speed, wave length or rhythm. Its influence is as much physical and psychological as it is emotional and it allows our vital energy to stimulate healing.

The lights are connected to the massage system which is controlled by the main keypad. It can also be controlled from a separate keypad or an air push button for an independent chromotherapy system.

Both systems work with their own electronic control for easier maintenance.

- 2 LED lights with 9 bulbs per light  
(7 colours)
- Electronic control
- Additional lights available

Individual chromotherapy switch

Chromotherapy + air massage combo

Chromotherapy + hydro massage combo

Chromotherapy + air massage + hydro massage combo

# AROMATHERAPY MECHANICAL/ELECTRICAL

Scents for the pleasure of your senses...

Natural plant extracts known as essential oils are used for aromatherapy. These oils are made through vapor distillation and the careful extraction or pressurization of the fragrant matter contained in the plants. Contrary to common belief, essential oils do not contain any greasy substances but only the natural secretions contained in the plant cells.

## Aromatherapy Electrical

Only a few drops of fragrance are needed. The system works using a pump which leads the air towards the receptacle which is filled with a combination of water and a few essential oil drops. Once the aromatherapy system is turned on, the diffuser spreads the natural scent of the essential oil into the ambient air.

- Cap available in chrome plated finish.
- Check valve (Supplied with the system to avoid water infiltration in the aromatherapy air pump.)
- Easy maintenance (The chamber is designed to resist essential oils.)
- The Aromatherapy diffuser system can be operated with an independent electronic keypad.

## Aromatherapy Mechanical

This uniquely engineered system uses an essential oil bead basket dispenser located below the deck of your bathtub. The air flows through the basket to release the fragrance of the essential oil beads and infuses the bathtub water and surroundings.

Cap available in chrome plated finish.

### Aromatherapy bead basket :

- Eucalyptus or Lavender fragrance.
- Each box includes 10 aroma bead baskets.

# COMFORTWARM™ SYSTEM

Thermotherapy in the comfort of your home.

The comfort of being completely submerged in hot water has always been considered the ultimate pleasure in relaxation and home thermotherapy.

But what about the neck and shoulder area that often carries the most weight of our daily stress and fatigue? It is often quite complicated to get that much needed warmth to the area where tension accumulates the most.

- Chrome Keypad
- Control with Transflo
- Bathtub - 22" x 8" 35 watt heating pad

ComfortWarm™ Heating pad available:

Sizes	Watts
22" x 8"	35 Watts

# VIBE AUDIO SYSTEM

The Vibe System allows you to enjoy your music or radio at the touch of a button in your shower or bathtub.

The vibes of the music can be synchronized with a Chromatherapy system that will change colors in sync with every beat of your favorite music.

If you're in the mood for peace and relaxation; let the chromatherapy wash over you with the slow rhythm of the music to bring you where you want to be.

Or let the colors fly to a dynamic beat that will pop-up your day !

On your keypad or remote

The Vibe System connected by Bluetooth to your electronic device can easily be controlled through an electronic keypad or a Remote control.

ON YOUR ELECTRONIC DEVICE (Android, iphone, Tablets, etc.)

- Includes the Bluetooth module, the amplifier and the light connectors.
- The Vibe System uses two(2) 25 watt high quality speakers
- Low voltage System - 1 Amps
- Offered in: 120V/15A

You can control the system with

Remote Control

Android

iPhone

Backlit Keypad
